Profile

Shenzhen Institute of Technology (SIT) is located in Shenzhen, the demonstration city of Reform and Opening-up and the first Special Economic Zone in China. Established by Shenzhen Municipal Government in 1985, SIT is a national key technician college, aiming at cultivating high-skilled talents such as senior mechanics, technicians and senior technicians for local industrial development.

With an area of approximately 370,000m² and a construction area of 264,000 m², SIT consists of 10 teaching departments with 25 majors, including School of Sino-Germany Intelligent Production, School of Applied Design, School of Electronic Information Technology, School of International Business, School of Jewelry, School of Automobile Technology, School of Applied Biology, School of Landscape Architecture, School of Graphic Communication Technology, and Department of General Subjects. SIT has now over 11,000 full-time students and more than 700 faculty members.

Focusing closely on cultivating high-skilled talents for Shenzhen industrial transformation and upgrading and economic development, SIT carries out extensive school-enterprise and international cooperation, promotes the craftsmanship spirit of striving for the best, and deepens the educational and teaching reform, with the vision to build a world famous and domestically first-class technician school. Though more than 30 years of development, SIT has won many outstanding awards, such as “Outstanding School of National High-skilled Talents Cultivating”, “Demonstration Base of National High-skilled Talents”, and “China National Training Base for WorldSkills Competition”. In 2015, SIT student Ma Weixin won the Outstanding Achievement at the 43rd WorldSkills Competition.

P 专业介绍

rogram Introduction

中德智造学院

开设有工业机器人应用与维护、数控编程、模具制造、激光技术应用、电梯技术等专业。

School of Sino-Germany Intelligent Production provides the following programs: Industrial Robot Application and Maintenance, CNC Programming, Mould Manufacture, Laser Application, and Elevator Technology.

德国专家来我校指导教学

模具制造课程教学
Mould

应用设计系

开设有室内设计、工业设计、计算机广告制作、计算机游戏制作、计算机动画制作、摄影摄像技术等专业。

School of Applied Design provides the following programs: Interior Design, Industrial Design, Computer Advertisement, Computer Games, Computer Animation, Photograph and Video Technology.

2015年，应用设计系学生马韦欣
参加大洋洲技能大赛荣获平面设计项目金牌
Ma Weixin won the Gold Medal in the Oceania Skills Competition
of Graphic Design in 2015.

产品创新设计与制造创客实践室
Product Creative Design and Maker Workshop

电子信息技术系

开设有通信网络应用、智能电子技术、互联网技术等专业。

School of Electronic Information Technology provides the following programs: Communication Network Application, Intelligent Electronic Technology, and Internet Technology.

网络布线课程教学
Network Cabling

中法学生开展智能机器人竞赛
Robot Competition between Chinese and French Students

国际商务系

开设有商务文秘、现代物流、市场营销等专业。

School of International Business provides the following programs: Business Secretary, Logistics, and Marketing.

商务速录
Stenography

国际快件业务操作
International Express

珠宝首饰系

开设有珠宝鉴定与营销、珠宝首饰设计与制作等专业。

School of Jewelry provides the following programs: Jewelry Identification and Marketing, and Jewelry Design and Making.

珠宝技能鉴定
Jewelry Identification

珠宝营销
Jewelry Marketing

汽车技术系

开设有汽车维修、汽车钣金与涂装等专业。

School of Automobile Technology provides the following programs: Automobile Repair, Automotive Sheet Metal and Coating.

中法学子比试汽车维修技能
Automobile Repair Competition between Chinese and French students

汽车维修专业实训室
Automobile Repair Workshop

应用生物系

开设有应用生物技术等专业。

School of Applied Biology provides the following program: Applied Biology Technology.

食品卫生检测
Food Inspection

风景园林系

开设有园林技术等专业。

School of Landscape Architecture provides the following program: Gardening Technology.

花艺制作
Floriculture

图文传播技术系

开设有图文信息处理、印刷技术等专业。

School of Graphic Communication Technology provides the following programs: Graphic Information Processing, and Printing Technology.

印刷稿件制作
Article Printing

印刷专业实训室
Printing Workshop

C 办学特色 Characteristics

校企合作办学

School-Enterprise Cooperation

学院将校企合作作为办学的基本制度，通过与丰田汽车公司、奥的斯公司、蒂森克努伯公司、IBM公司、银宝山新公司等世界500强和行业龙头企业深度合作，探索“企业新型学徒制”等人才培养新模式，按照企业需求培养技术技能人才。

SIT established the basic system of school-enterprise cooperation in vocational education. Through the deep cooperation with Global 500 and leading enterprises, such as Toyota, Otis, ThyssenKrupp, IBM, we explore the new talent-cultivating mode of Modern Enterprise Apprenticeship Mode and cultivate the high-skilled talents according to the needs from enterprises.
